EXPERIENCE

- Back-End Developer with a proven track record , where I engineered custom C++ and C# solutions, enhancing user.
- Spent the past 2.5 years building projects that challenge and enhance abilities in C#, .NET, and related technologies.
- Continuously learning and practicing programming through creating new projects, using sites like ProgrammingAdvices.com for guidance.
- Skilled in C#, .NET, ADO.NET, T-SQL, SQL Server, WinForms, OOP, and Data Structures.

PROJECTS

Project 1
Full-Real-Project-DVLD

- The project leverages the power of .NET Windows Forms, written in C# and follows Object-Oriented Programming (OOP) principles to ensure scalability and maintainability.

Project 2
Bank System Demo

A simple bank program in C++ using OOP and classes manages customer accounts by providing functionalities like deposit, withdrawal, and balance inquiry.

EDUCATION

B.Sc. computer and information Science
Zagazig University

🗓 Oct 2021 – July 2025 📍

General foundation in programming
programmingadvices.com

🗓 July 2023– Aug 2024 📍

SKILLS

C++ C# Object-Oriented Programming
Strong database management Problem-Solving
Algorithms Git & GitHub RESTful APIs
SQL .NET ADO.NET

SOFT-SKILLS

Communication Skills Flexibility Team Work
Emotional Intelligence Fluent English
Critical Thinking

LANGUAGES

Arabic ●●●●●

English ●●●●○

CERTIFICATIONS

- Algorithms-problem-solving level 2,3,4,5 from programmingadvices.
- OOP With C++,C# from programmingadvices.
- Data Structures - Level 1,2 from programmingadvices.
- Database SQL and Connectivity from programmingadvices.
- Full-Real-Project-DVLD.
- Emotional Intelligence.
- Critical Thinking.
- Communication Skills.
